## If Transactions Don't Match

Check for one of three errors:

1. The item was recorded incorrectly in your checkbook register,
2. The item paid or was credited to your account for the wrong amount, or
3. Your share draft numbers were listed incorrectly.

### To Correct the Errors

1. Simply look at and/or recheck your canceled share drafts or share draft images, deposit receipts, and/or ATM and Visa Check Card receipts.
2. Remember some items will not be checked off. These are called "outstanding items."

**Note:** If you do not have cancelled share drafts or images returned with your statement, contact your branch and ask for a copy of the item in question.

## ⑤ Check for Outstanding Items from Previous Statement

Be sure that all of the outstanding items from your previous statements have been included in this statement. Otherwise, they are still outstanding.

**Note:** If an item is outstanding for 60 days or more, contact the person or company you wrote the check to and see if the share draft has been received. If it hasn't, the share draft may have been lost and you may want to call the credit union and make a stop payment.

## ⑥ Verify Other Debits on Statement

Verify that additional withdrawals listed on your statement, other than share drafts, are charged for the amount actually drawn. This includes ATM withdrawals, Visa Check Card transactions and any automatic debit transactions like insurance payments, loan and/or utility payments.

## ⑦ List All Outstanding Share Drafts

Make a list of all outstanding share drafts or ATM/Visa Check card withdrawals. These are transactions that appear in your checkbook register that do not have a check "✓" mark next to them. Add these items together. **Tip:** Use the worksheet on the back of your statement.

---

## ⑧ Balance

Now, balance your checkbook register to your credit union statement. Use the formula below, which is also located on the worksheet on the back of your statement.

|   |    |
|---|----|
| Statement Ending Balance  |    |
| ADD (+) Deposits Shown in Checkbook Register But Not on Statement |    |
| Subtotal  |    |
| MINUS (-) Total Outstanding Share Drafts                          |    |
| Total   | \$ |

Compare this total with the ending balance in your checkbook register. They should be the same. If not, there's a mistake. **Do Not Panic!** This can be easily fixed. If they are the same Congratulations! You've successfully balanced your checkbook.

### If Things Don't Add Up

- Take a short break to clear your head.
- Start by re-verifying your outstanding items.
- What's the difference? Is your checkbook balance higher or lower than your statement? Subtract the smaller figure from the larger one to get the difference. Now...
  - Divide the difference by 9. If 9 goes in evenly (that is, with nothing left over), the problem is transposed numbers. For example, \$258 was recorded as \$285. Look over your receipts and cancelled share drafts and double-check your amounts.
  - Divide the difference by 2. If the answer you get is a "normal" dollars-and-cents amount (i.e., \$7.19 rather than \$15.125), look for that amount in your register---it was added instead of subtracted, or vice versa.

### Still Doesn't Balance?

Well, you've tried hard and made every effort. Now it's time to ask for help. Call or come by one of our branches. You will need to bring in your current credit union statement and your checkbook register. Every effort will be made to assist you balancing, and next time it will be easier.

## Do You Fit in One of these Categories?

A) **Nice try, but...** - You try to balance your checkbook using pencil and paper, but find it frustrating and have difficulty making the numbers agree.

B) **See No Evil** - You avoid the frustration altogether by ① Ignoring your monthly statement altogether, ② Using the credit union's balance, or ③ Keeping an approximation in your head.

This brochure will help simplify the balancing process and hopefully reduce the anxiety level when your credit union statement arrives.

By recording the transactions and balancing your account total in your checkbook register, you'll get a clearer picture of your spending habits and know exactly how much money you have. And, if for some reason you detect a problem, the sooner you can correct it, the better.

## The Balancing Act

Balancing your checkbook each month within a day or two of receiving your statement will not only reduce your stress level, it will lessen the amount of time it takes to complete the task.

**On the back of your monthly statement** is a handy form to help you balance. Use it along with the following steps to make balancing a snap.

Before you begin, gather the following:

Your last two credit union statements

Your checkbook and register

Any ATM and/or Visa CheckCard Receipts that you did not record in your checkbook register

A pencil

## How Your Statement Works

Seldom will your credit union statement and checkbook register agree. But, that is no reason to panic. It's merely a matter of timing.

Your statement lists the transactions *posted to or cleared* to your account as of the closing date. The closing date is usually found in the upper right-hand corner of the first page of your statement.

Once your statement has closed, it will take a few days for the information to be printed and for it to arrive in the mail. Meanwhile, you are continuing to write share drafts, make ATM withdrawals and/or deposits, and hopefully, keeping track of these transactions in your checkbook register.

Remember, it also takes a few days for your share drafts, ATM, Visa Check Card, and/or deposit transactions to be recorded on your account.

## Record, Balance, Repeat

Recording each transaction in your checkbook register and adding or subtracting it from the balance is the first step to simplifying the balancing act.

It's important to record the transaction at the time you actually write the share draft, make a withdrawal, or make a deposit.

## Eight Steps to Balancing

### ① Record Interest Earned

In your checkbook register, enter all of the interest earned on your account (if applicable). The interest earned will appear on the front of your statement.

Add this balance. Be sure to record any other credit amounts listed, such as credit union corrections.

### ② Record Service Charges, Etc.

In your checkbook register, record any charges that have been subtracted from your account, as shown on your statement. These charges may include:

- Monthly services charges
- Per share draft charges
- ATM transaction charges
- Non-sufficient Funds fees

Subtract these charges from your register balance.

Interest from Statement + \_\_\_\_\_

Subtotal \_\_\_\_\_

Service Charges from Statement - \_\_\_\_\_

"New" Checkbook Balance \_\_\_\_\_

### ③ Verify Deposit Amounts

Look at your latest statement and verify that all deposits listed match the deposit amounts listed in your checkbook register.

Make a list of any deposits that are listed in your register but do not appear on your statement. Add these together. **Tip:** Use the worksheet on the back of your statement.

| Date  | Outstanding Deposits | Amount |
|-------|----------------------|--------|
|       |                      |        |
|       |                      |        |
|       |                      |        |
|       |                      |        |
| Total |                      |        |

### ④ Match All Share Draft Entries

Match the entries in your register with the transactions listed on your credit union statement. Compare share draft numbers, dates, and dollar amounts on all share drafts written. If these items match, place a check "✓" mark next to the transaction in both your register and on the credit union statement.

If they, don't match, circle the item in both places so that you can come back to fix the error once all of the transactions have been checked off.
